

## The Language

**Challenging Assignment**—an appropriate stretching assignment that will challenge the leader to learn and grow in order to fulfill the assignment. If it's too high they will fail, too low they will be bored. The appropriate challenge will be just above the leader's current capacity

**Collage**—the idea of many separate elements working together to bring unity to a larger picture. This term is most commonly used in reference to learning experiences. i.e. a collage of learning experiences would define the interrelated and multifaceted collection of learning experiences that were designed using the 5C model and the 4 dynamics of transformation.

**ConneXions**—the “X” is from the Greek letter, “Chi” which stands for “Christ”. Thus, Christ is at the center of leader development and must be at the center of the leader. ConneXions also refers to the necessity for a leader to be connected to Christ and community and a healthy leader will not have disconnections, especially related to character.

**ConneXions Mentor**—a leader who has had ministry experience and is currently applying the ConneXions model in a way that is appropriate to their culture and context.

**ConneXions Model (5C Model/5C's)**— According to our ConneXions “5C” model, a healthy Christian leader knows God (Christ), was formed and lives in supportive and accountable community (Community), has integrity (Character), knows the purpose of God and presents it with credibility, clarity and passion (Calling), and has the necessary gifts, skills and knowledge to lead the people in the accomplishment of this purpose (Competencies).
